Alfons B. Veer switches to Commercial Vehicles

New Executive Director at the Krone Commercial Vehicle Group

As of 1 August 2018, Alfons B. Veer, CEO of Trenkamp & Gehle GmbH, will also be appointed Executive Director at the Krone Commercial Vehicles Group where he takes charge of Strategy & Project Management (SPM), IT Architecture, Product Management and Procurement. “The appointment of Alfons Veer marks a major step in a timely shift towards a younger management board in the Krone Commercial Vehicles Group”, says Bernard Krone. “We are very pleased to draw on an expert from within our own ranks. Managing our Krone Trailer Axle production site in Dinklage for many years with exceptional expertise, Alfons Veer is well equipped to tackle the new tasks within the Krone Commercial Vehicles Group”, adds Bernard Krone. Alfons B. Veer (40) has been with Krone for 15 years. After graduating as a Master in Business Administration, he completed a trainee programme at the Krone Group before taking charge of several projects including building the new parts warehouse and logistics centre at Spelle and setting up the Krone trailer factory in Tire, Turkey. In 2013, Alfons B. Veer was appointed CEO of Trenkamp & Gehle GmbH which is headquartered in Dinklage, where he has been in charge of the Trailer Axle Developing and Market project. The axle was first unveiled at the international IAA 2014 motor show. Today, the Dinklage production site manufactures up to 300 Krone axles every day and recently received a new 3200 m² factory and office building. “I look forward to this new assignment within the Krone Group and appreciate the trust placed in me”, says Alfons B. Veer. “Together with our highly motivated staff we are set to continue on our long-standing path of exceptional growth for decades.” Numerous investments at Dinklage and Werlte already laid the foundation stone for this. In the future, we will continue to dedicate all our energy and expertise to supply our customers with professional transport solutions in exemplary quality.”
