

20. May 2019

KRONE at transport logistic Munich

Krone is exhibiting a range of vehicles at transport logistic: The Cool Liner, which is equipped with the new Celsineo cooling system, a joint development by Liebherr and Krone, is expected to be of great interest. Krone will also be showing a Profi Liner with Safe Curtain load securing curtain, in which high-strength spring steel strips are installed in the side curtain, as well as a Mega Liner in the Comfort version; thanks to the innovative side curtains, drivers can open the vehicle in less than 30 seconds, which significantly shortens the entire loading process. Also on the stand, with Rytle, Krone will be showing innovative solutions for urban logistics. In addition to the MovR cargo bike, Rytle will be exhibiting the City Hub from the Krone portfolio, which includes up to nine Rytle boxes. Furthermore, Krone will be presenting its comprehensive range of trailer-related services, from financing, spare parts service and 24-hour emergency calls to tailor-made service packages. For the first time, Krone offers a platform for inspiring exchange with guests and experts: the Krone ‚Denkfabrik‘ daily brings together key players in the industry with external inspirers in order to jointly develop new ideas and turn them into real added value for the industry. transport logistic Munich, 4. - 7. June 2019, Messe Munich

KRONE: Hall A6.305/406

Celsineo: Hall A6.329/426
