Krone Business Center in Haselünne officially opened

"We are deliberately bundling synergies in the areas of accounting and IT so that we can continue to operate effectively and competitively with the Krone Group in Emsland" - with these words Bernard Krone officially opened the new Krone location in Haselünne, headquarters of the newly founded Krone Business Center GmbH & Co. KG, which operates 100 percent under the roof of Krone Holding. Over the past five months, around 60 modern workplaces have been created in the rented building in Kreuzweg, which are now used by 55 Krone employees from IT and accounts payable. The investment volume amounts to around 500,000 euros. In addition, all employees who prepare monthly and annual financial statements for the Krone Group are also active at the Haselünne site. "With this reorganization in the areas of IT and accounting, we are bringing together the corresponding competencies from our German locations - Spelle, Werlte, Herzlake, Dinklage and Lübtheen. We can now use the individual know-how and personnel capacities for the entire Krone Group across all locations," Bernard Krone continued. In addition, he stressed that Krone will also test new working time models at the new location. "We want to position ourselves further as an innovative and attractive employer in Emsland, which is why we are now also offering flexible home office opportunities, for example," said Krone.
